

Building Satellite Data Ecosystems

The University of Edinburgh and the **Satellite Applications Catapult**

This is an excellent opportunity for you to explore potential joint collaborations to commercialise new data and define applications.

For further information and to register please visit:

<http://satellitecatapult.eventbrite.co.uk>

Attendance is free but places limited so early booking is advised.

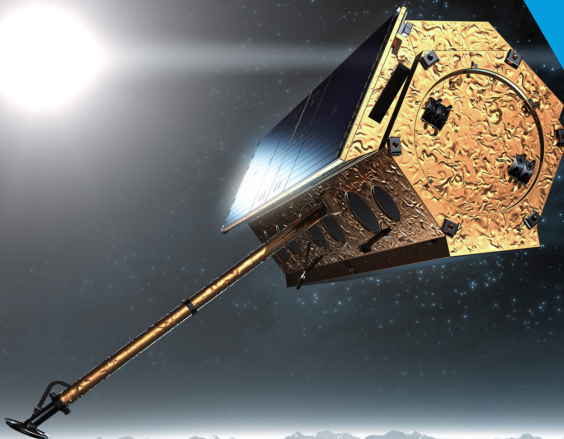

THE UNIVERSITY
of EDINBURGH

CATAPULT
Satellite Applications

Tuesday 19th March 2013
9am - 2pm

**Edinburgh Centre for
Carbon Innovation**

<http://edinburghcentre.org>

ecci
EDINBURGH CENTRE
FOR CARBON INNOVATION

The Satellite Applications Catapult, one of a network of UK technology and innovation centres, aims to drive economic growth through commercialisation of research and help UK businesses become more globally competitive in the exploitation of new satellite-based products and services. This aim allies with a government pledge to increase funding for European space technology to £120 million over the next two years.

Edinburgh has world-class expertise in downstream services and application development of satellite data. Together, with the Satellite Applications Catapult we are hosting a morning event for academics and businesses of all sizes across the UK to explore the options for joint collaborations, partnerships and applications for forthcoming research initiatives, such as the European programme - Horizon 2020.

Academic researchers and industry representatives will present on data processing and application development - specifically applications that require Big/Extreme Data characteristics.

- 09:00 Registration, coffee and pastries
- 09.20 Welcome and introduction
Satellite Applications Catapult
Ecosystem concept and the Edinburgh cluster
Atmospheric CO₂ and GHG monitoring
- 10.50 Refreshment break & networking
- 11.10 Commercialisation of satellite and other geospatial data
Ecosystem Service, including REDD+ Carbon Stock & Sequestration Data from Remote Sensing
Questions/discussion - panel discussion
- 13.00 Buffet lunch and networking
