

European Space Agency

ESA Business Applications

**→ KICK-START SUPPORT
FOR SPACE-ENABLED
COMMERCIAL CLIMATE SERVICES**

Funding up to € 60 000 per Activity

Deadline 16 January 2018

The European Space Agency is offering support to companies to assess the viability of commercial space-based services in response to climate change to meet the demands of particular user communities.

WHAT WE OFFER

Funding up to €60K per Activity

Network & Partnership Building

Technical & Business Expertise

ESA Branding & Promotion

WHAT WE LOOK FOR

- ✓ Applicants with strong business and domain expertise
- ✓ Attractive market opportunity and customer engagement
- ✓ Commercially viable service concepts
- ✓ Technically feasible solutions enabled by space

Topics of Relevance and Added Value of Space

This ESA competition is aimed at identifying ideas for new types of Commercial Climate Services. Relevant opportunities include for instance assessing the impact of regulations at local and regional level and the monitoring of these regulations. In other cases, climate change may open up new business areas in order to mitigate or even exploit rising temperatures and environmental change in sectors such as Health, Energy Supply, Transportation and Critical Infrastructure, the management of Food and Water Resources, and Compliance Monitoring. Ideas from other application areas that fit the scope of the call may also be proposed. Ideas must utilise at least one type of space asset such as Earth Observation, Satellite Navigation or Satellite Communications.
